SNS ICE is the de facto ambassador of the SNS JU, and as such is very motivated and on a mission to support an aligned 6G Ecosystem in Europe and beyond to create a collaborative environment for European and global stakeholders involved in the preparation of smart networks and services. SNS ICE is actively collaborating at International and European level, between peer Horizon Europe Partnerships, national initiatives, research and development clusters, etc. with the goal to exchange information, plans and priorities.

Recently, the project participated at 5G Techritory with 3 co-creation sessions and a Panel discussion that brought together experts of varied backgrounds working on common goals around 6G and focused on important key actions and discussions.

Other upcoming strategic European and international events we plan to participate include events like 10th Global 5G Event, IEEE Future Networks World Forum (FNWF) 2023, IEEE Globecom etc. We keep you updated and informed about our activities and forthcoming participations.

SNS ICE project has been operational since 1/1/2023 and all 9 partners have been actively engaged with the project activities, working together towards the common goal of the project to become the International, European and Vertical-oriented ambassador of the SNS JU programme.
GLIMPSES FROM SELECTED EVENTS

- MoU signed between 6G-IA and 5G-MAG
- 5G Techritory 2023 highlights
- Position Paper: KEY STRATEGIES FOR 6G SMART NETWORKS AND SERVICES – Sept 2023
- SNS ICE contributes/influences ESA Strategic Programme Line
- ETSI research conference & how do we benefit

MOU SIGNED BETWEEN 6G-IA AND 5G-MAG

The 6G Smart Networks and Services Industry Association and 5G MAG have signed a Memorandum of Understanding (MoU) with a goal to collaborate on topics of mutual interest in the field of next-generation communication networks, systems and applications. This MoU, was facilitated by the SNS ICE vertical engagement activities, enables exchange of information on joint activities, participation in workshops, meetings or webinars, and insight into research projects and trials. SNS ICE AT 5G TECHRITORY 2023

At the 5G Techritory conference in Riga, the SNS ICE project joined forces and organized three co-creation sessions and a thought-provoking panel discussion. These co-creation sessions brought together experts of varied backgrounds working on common goals which were quite diverse, and focused on important key actions covering:

"National Initiatives: This session focused on different approaches to European collaboration for 6G research". At this event, opportunities for cooperation and collaboration between national initiatives working on 6G in Europe and EU-level funded programs were explored.

"5G for sustainability, the future role of 6G": This session covered aspects about sustainability in a thorough mode, encompassing environmental, social and economic drivers and discussions laid the foundation towards a sustainable and user-centric future system.

"5G for verticals: from large scale trials to adoption, driving economic value in Europe": This session shared the 5GPPP (5G Public-Private Partnership) and SNS JU experience in developing mobile technologies, from lab-testing real-life trials to facilitating deployment in the field. Read more ...

Our #Podcast is here for the latest news and in-depth insights in the world of 6G in Europe. Dive into the industry news, analyze the latest trends, discuss the development of the new generation of cellular networks.
