6G4Society

Towards a sustainable and accepted 6G for Society
Grant Agreement no 101139070

6G4SOCIETY aims to ensure that **societal and sustainable values** are properly embedded into **the development of 6G**, while securing technology performance objectives.

CSA

Coordination and Support Action

January 2024 - December 2025
(24 months)

6 organisations, 6 countries

999 625 € funded by the EC

Funded by Horizon Europe
and additionally by SERI in CH

6G4SOCIETY OBJECTIVES

1

Generating a **better understanding and shared knowledge** on the aspects influencing public acceptance of 6G technologies

2

Supporting the conception and development of a unified EU consensus framework on a value-based, sustainable and ethics-driven approach towards 6G, and to support its promotion through the 6G EU and global standard-setting process

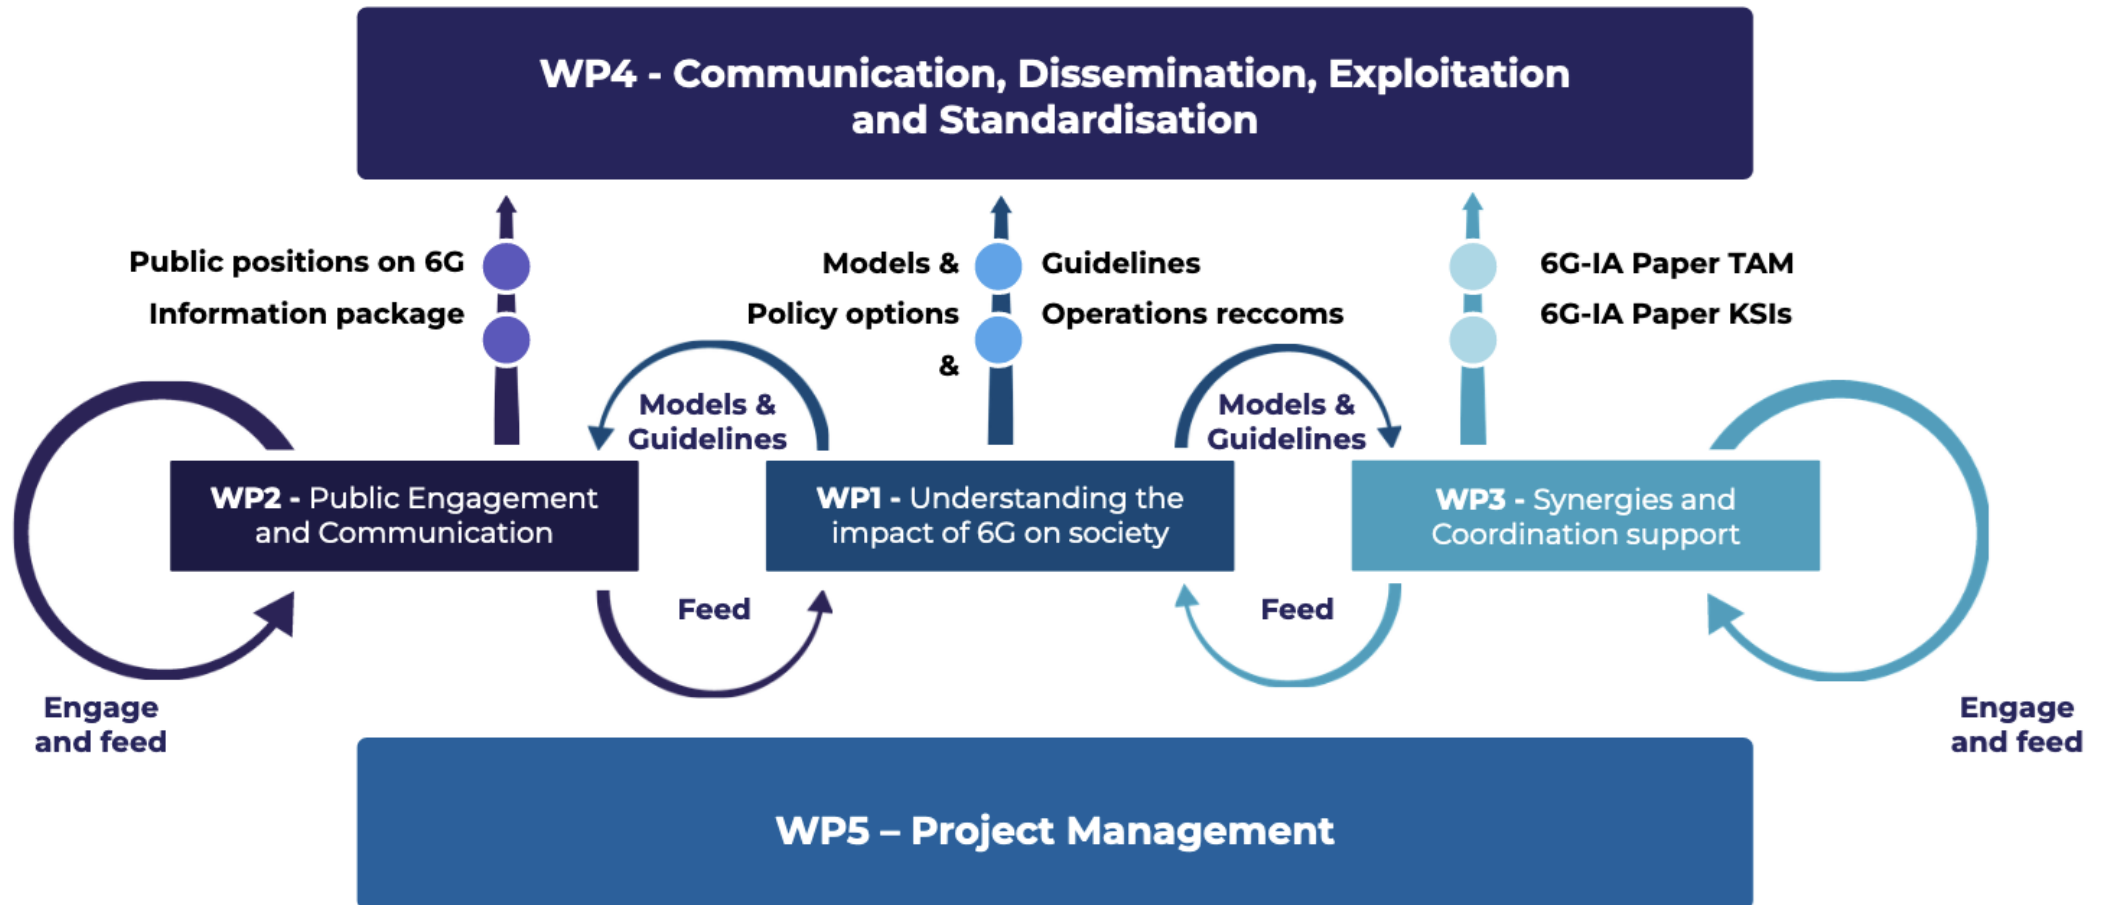

3

Engaging and reaching out to the public audience to help build 6G awareness and social acceptance

4

Empowering the 6G community on how to **reflect EU policy and legislation into technology solutions** for future networks' development and services

PROJECT STRUCTURE

CORE PRINCIPLES

● Bridging public and non-expert audiences with industries and SMEs in the Smart Network and Services ecosystem

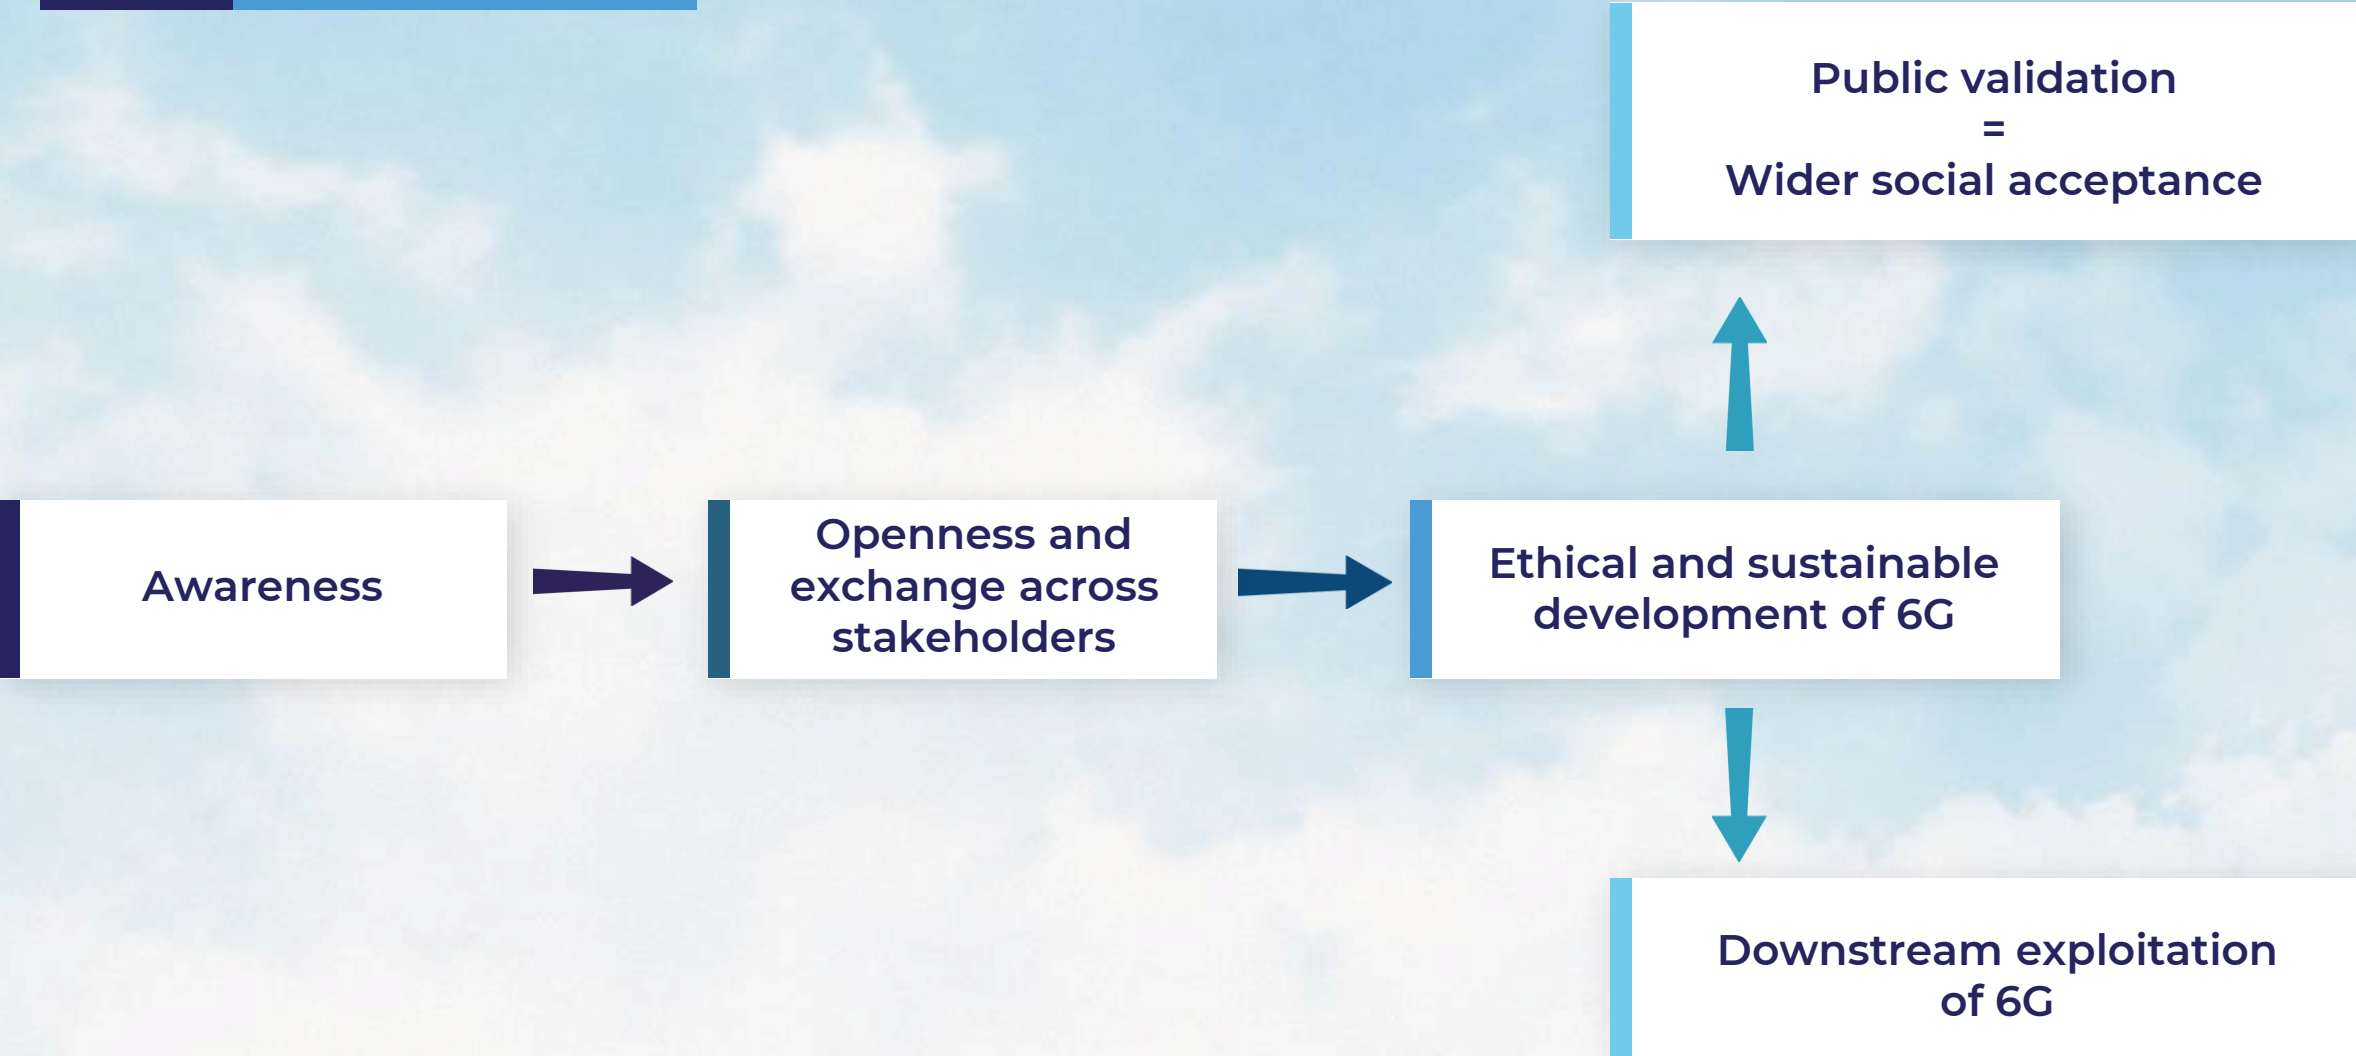

● Leveraging on the relevant work done by ongoing 6G SNS projects – see KVIs / Sustainability Task Force

● Promoting awareness, inclusivity, sustainability and trustworthiness, key factors for an ethics- driven development of 6G and its social acceptance

PLANNED IMPACT

The **6G4SOCIETY** project envisions a future where heightened awareness leads to a transformative impact across all domains, fostering **ethical, sustainable, and widely accepted technological development** ensuring societal benefits for all.

LONG-TERM IMPACTS

Summary of stakeholder positions on the planned impact of 6G technologies on society and the expected improvements on citizens' life

Technology acceptance model or roadmap building on outputs of relevant projects

Explanatory material for non-experts, fostering a better understanding of the potential effects of 6G and related technologies

PLANNED OUTCOMES

General public informative events and publications in non-specialised media, studies, citizen/end-user panels, and open public debates with experts

Development of sustainability indicators, building on the KVIs, towards larger public validation and downstream exploitation at international and standardisation levels

Advice for relevant stakeholders on how to reflect EU policy objectives and EU legislation and guidance in SNS technology solutions for future networks' development and services

WHERE TO MEET 6G4SOCIETY NEXT

 3-6 June 2024

Antwerp, Belgium

EuCNC 6G Summit

The 2024 EuCNC & 6G Summit builds on putting together two successful conferences in the area of telecommunications: EuCNC (European Conference on Networks and Communications), supported by the European Commission, and the 6G Summit, originated from the 6G Flagship programme in Finland, one of the very first in its area.

 4-5 June 2024

Vienna, Austria

PSCE Summer Conference 2024 in Vienna

4 & 5 June 2024

TOPICS

- AI- Information overload – How to make best usage of massive data? How AI could support the flow of massive data
- Satellite-Non terrestrial Communication
