The background is a solid light blue color. It features a faint, repeating pattern of circuit board traces (PCB layout) across the entire surface. In the lower portion of the image, there are several overlapping, wavy, horizontal bands of a slightly darker shade of blue, creating a sense of depth and movement.

Q&A

- Have you compared the results with the call programme to see if we generally cover the expectations?
- Would you "like" to have more balanced distribution with future calls? I would appreciate some considerations or wished future directions.
- Will you give any conclusions based on the questionnaires?
 - SNS CO-OP Deliverable D1.1 SNS Impact analysis report 1.0
