# Targeted 2025 5G (/6G) T&Ps on Industry/Manufacturing - SNS 2025 T&Ps and SNS Call 2025 Stream D Projects Opportunities

Dr. Didier Bourse

6G-IA SNS Work Programmes Task Force / Core Team Chairman, Nokia

6G-IA – 5G-ACIA Joint Webinar "Update on recent 5G/6G Achievements"
19.05.25 – Online Webinar

➡️

- Forthcoming SNS Call 2025 Opportunities
  - B-01: Disruptive Technologies for 6G
  - B-02: Wireless Communication Technologies and Signal Processing
  - B-03: Communication Infrastructure Technologies and Devices
  - B-04: Reliable Services and Smart Security
  - B-05: Microelectronic – Front-End Module (FEM)
  - C-01: 6G Telco Cloud and Service Provision Enablers
  - **D-01: SNS Trials and Pilots (T&Ps) with Verticals**
- In addition
  - C-01 Synergies with EC HEU CL4 DATA-08 Telco Cloud Programme and IPCEI CIS
- Forthcoming SNS WP2026 and WP2027

- SNS WP2025 Document @ amended-sns-ju-ri-wp-2025.pdf

- SNS Call 2025 Stream D not yet open – Targeted 4 Projects of 6 ME EC funding each

Streams / Topics	Indicative Topic Budget (in M€)
HORIZON-JU-SNS-2025-02-STREAM-D (IA)	
01: SNS Trials and Pilots (T&Ps) with Verticals	24.0
Total (M€)	**24**

- "….The applicants should select their targeted vertical sectors according to the project objectives and use-cases, considering the vertical priorities for (1) Industry/Manufacturing (including robotics), (2) Media (including gaming, broadcasting…), (3) Transportation/Logistics, (4) Emergency and Safety Services and (5) Health (indicative order not prioritized). The afore verticals to be considered should be in line with the European view on 6G use-cases that were presented during the 3GPP SA1 Workshop in May 2024. The projects are expected to focus on specific verticals sectors (one or maximum two verticals per project, in the case of existing commonalities/complementarities between the selected two verticals; nevertheless, if addressing two verticals, applicants should still clearly indicate the centre of gravity, i.e. the main vertical of the project, for evaluation purposes)…"

- "…Note: To ensure a balanced portfolio within Stream D and to guarantee that the approved projects will have different centres of gravity from the above 5 vertical priorities, grants will be awarded to applications not only in order of ranking but at least also to one project that is the highest ranked within each of the above vertical priorities, provided that the applications attain all thresholds (and subject to available budget). Only the centre of gravity vertical area will be considered in terms of topic coverage during the evaluation process"

Thank You! Questions?

The Voice of European Industry and Research for Next Generation Networks and Services
